

MARIAM HAMDY

Front-End Developer

Monofia, Egypt • hamdymaryam874@gmail.com • www.linkedin.com/in/maryam-hamdy-232763262 • +20 100 256 4232

Objective

An energetic last year computer science student, a passionate Front-end (React.js) developer. With a strong background in web development, I specialize in building robust and scalable applications using the latest technologies. My journey began with a curiosity for coding, and it quickly evolved into a deep love for creating seamless user experiences. I thrive in dynamic environments where I can leverage my expertise in front-end development with React.js to craft intuitive and visually appealing interfaces.

Qualification

Front-end Developer

Oct 2022-present

Higher Institute of Computer Science and Information Systems, 6th of October

PROJECTS

Bakery Website

- Built and deployed a responsive bakery website using HTML5, CSS3, and Vercel, focusing on clean design and user-friendly navigation and response.

E-commerce Website

- Built a responsive e-commerce app using React, Redux, and Bootstrap with product listing, cart functionality, and Vercel deployment.

Recipe Website

- Built a responsive recipe app using React, Redux, and Bootstrap with recipe browsing, search functionality, and Vercel deployment.

Weather Website

- Developed a responsive weather application using HTML, CSS, JavaScript, Bootstrap, and Font Awesome.
- Integrated a Weather API to display real-time data including temperature, wind speed, rain percentage, and 3-day forecast.
- Implemented Light/Dark mode with dynamic UI elements (sun & clouds for day, moon & stars for night).
- Added search functionality to fetch weather data for any country.

SKILLS

HTML5 | CSS3 | JavaScript (ES6+) | Bootstrap 5 | Responsive Design | React.js | Redux | Redux Toolkit | React Router DOM | Git | GitHub | C++ | Object-Oriented Programming (OOP) | Algorithms & Problem-Solving | Building User-friendly Interfaces | Accessible Interfaces | Visually Appealing Interfaces.

Education and Training

- Route Academy
- National Telecommunication institute (NTI), Cairo, Egypt
- Udemy

Sep 2024 – Feb 2025
Agu 2025 – Sep 2025
2024

LANGUAGE

- Arabic – Native
- English – intermediate
